

## Single Source Solution for Your Manufacturing Needs

### ➔ Rebuild Older Machinery To Increase Productivity and Save Money

NEW Controls, NEW Hydraulics, NEW Front End Parts, INCREASED Productivity, IMPROVED Part Consistency... *LESS than half the price of new!*

### ➔ Mold Design & Manufacture We'll design and make the molds you need

QSI's ALTERNATE SOLUTION to customer's steel components to REDUCE: Weight, Cost, and Leadtime; ELIMINATE Painting; INCREASED Color Choices... *INCREASED Profit!*

### ➔ Automated Insert Molding 6-Axis Robot Positions Inserts, then Removes Finished Part

Articulated robot accurately and quickly positions inserts in a 8-Cavity injection mold for High Productivity and Consistent Quality!

### ➔ Advanced Feeder Control For consistent part feeding every time

Controller adjusts vibration to maintain consistent feed rate regardless of part level.

Sensor provides constant feedback to control vibration. *Easy to RETROFIT existing bowls!*
